COBIT® 5 is ISACA's framework for governance and management of enterprise Information Technology. COBIT®5 incorporating the latest thinking in enterprise governance and management techniques, and provides globally accepted principles, practices, tools and models to help increase the trust in, and value from, information systems. COBIT® 5 expands on COBIT® 4.1 by integrating other major frameworks and standards and resources, including ISACA's Val IT and Risk IT, Information Technology Infrastructure Library (ITIL®) and related standards from the International Organization for Standardization (ISO).

AB Consulting is an Accredited Training Organisation (ATO) by APMG. is associated with AB Consulting and provides Accredited Trainers for the COBIT® 5 Foundation Course.

The "COBIT®5 Foundation" course teaches you the basic principles of the COBIT®5 framework.

Description

This instructor-led COBIT® 5 Foundation Training Course provides an overview of COBIT® 5. The course will provide existing practitioners and potential new COBIT® users' excellent insight into the new framework and explain the differences between COBIT 4.1 and COBIT® 5. Included in this course is an introduction to the new COBIT Assessment Programme using COBIT® 5. This course enables participants to understand the issues and implications of IT governance and good computing practices, considered as support for the creation of value.

Objectives

At the conclusion of the course, attendees will be able to

- Discuss how IT management issues affect organizations;
- Understand the principles the governance of enterprise IT and explain the differences between governance and management;
- Assess how the COBIT® 5 processes help guide the creation of the five basic principles and the seven governance and management enablers;
- Discuss the COBIT® 5: Enabling Processes guide, including the goals cascade and the process reference model;
- Describe the basics of how to implement COBIT® 5;
- Understand the differences between COBIT® 4.1 and COBIT® 5 and what to consider when transitioning;
- Explain the benefits of using COBIT® 5;
- List the training, products and support ISACA provides for COBIT® 5.
