Certification Language : English

COBIT® 5 is ISACA's framework for governance and management of enterprise Information Technology. COBIT®5 incorporating the latest thinking in enterprise governance and management techniques, and provides globally accepted principles, practices, tools and models to help increase the trust in, and value from, information systems. COBIT® 5 expands on COBIT® 4.1 by integrating other major frameworks and standards and resources, including ISACA's Val IT and Risk IT, Information Technology Infrastructure Library (ITIL®) and related standards from the International Organization for Standardization (ISO).

AB Consulting is accredited by APMG to organise the COBIT® 5 Foundation Course. QAP is associated with AB Consulting and Patrick Soenen is accredited as COBIT 5 training provider.

The "COBIT®5 Foundation" course teaches you the basic principles of the COBIT®5 framework.

Description

This instructor-led COBIT® 5 Foundation Training Course provides an overview of COBIT® 5. The course will provide existing practitioners and potential new COBIT® users' excellent insight into the new framework and explain the differences between COBIT 4.1 and COBIT® 5. Included in this course is an introduction to the new COBIT Assessment Programme using COBIT® 5. This course enables participants to understand the issues and implications of IT governance and good computing practices, considered as support for the creation of value.

Objectives

At the conclusion of the course, attendees will be able to

- Discuss how IT management issues affect organizations;
- Understand the principles the governance of enterprise IT and explain the differences between governance and management;
- Assess how the COBIT® 5 processes help guide the creation of the five basic principles and the seven governance and management enablers;
- Discuss the COBIT® 5: Enabling Processes guide, including the goals cascade and the process reference model;
- Describe the basics of how to implement COBIT® 5;
- Understand the differences between COBIT® 4.1 and COBIT® 5 and what to consider when transitioning;
- Explain the benefits of using COBIT® 5;
- List the training, products and support ISACA provides for COBIT® 5.

From promise...

... to reality.

Target audience

The target audience includes:

Exam

The official exam COBIT® 5 Foundation ISACA/APMG is included in the COBIT® 5 Foundation and Certification training course package.

The exam consists of 50 multiple-choice questions covering all five areas of the COBIT®5 Foundation syllabus, to be answered in 40 minutes. This is a closed book exam. The certification is granted as soon as the candidate provides at least 25 correct answers (50%). The examination takes place immediately at the end of the course and is invigilated by an accredited invigilator.

Important information: the exam is provided in English only. There is no current plan to deliver the exam in local languages already communicated by ISACA.

Material

- Participants receive a course book containing copies of all the course materials and the mock exam
- Each participant should bring the 2 following publications:
 - **The Framework:** for free for ISACA members or if you register on the site: <http://www.isaca.org/COBIT/Pages/COBIT-5-Framework-product-page.aspx>
 - **Enabling Processes:** for free for ISACA members or 135 USD for non-members: <http://www.isaca.org/COBIT/Pages/COBIT-5-Enabling-Processes-product-page.aspx>or the 2 paperback publications can be ordered along with the course for 100€ excl. VAT per participant.

CPE

Opportunity to earn 20 CPE (Continuing Professional Education) credits.
